Institute on Disabilities

**Join us for Community Forums  
about Person-Directed Services  
(PDS)**

## **Spread the word about PDS as an option for people who want more choice and control over their services.**

PDS are home and community-based services that can help people of all ages, and all disabilities maintain independence and choose the supports they need to live their best life.

- Do you want to learn more?
- Do you already direct your own services and want to share your experience?
- Are you new to self-direction, or thinking about trying it and have lots of questions?

If you answered “yes” to any of these,  
this FREE community event is for you!

values *into* action

This project is funded by a grant from the  
Pennsylvania Developmental Disabilities.

It is the mission of the Policy Information Exchange (PIE) to educate and inform Pennsylvanians with disabilities, their families and advocates, and the general public, regarding public policy issues and to further the exchange of policy information between the Pennsylvania Developmental Disabilities Council and federal, state and local policy makers.

Alerts, job postings, information and attachments sent out through the Policy Information Exchange (PIE) e-mail system are for information only and do not necessarily represent the position of the PIE or the Pennsylvania Developmental Disabilities Council. PIE forwards information and alerts to fulfill the requirement of the federal Developmental Disabilities Act to enhance self-advocacy on policy related matters by helping consumers, family members and others communicate with each other and disseminate timely information.

The Policy Information Exchange is funded in part by the [Pennsylvania Developmental Disabilities Council](#).

If you received this message from a friend, you can sign up to receive Policy Information Exchange (PIE) e-mail updates by sending an email to [pie@thearcpcpa.org](mailto:pie@thearcpcpa.org).
